Yolla	31/01/2024
Young at Heart	2/12/2023

Roster Procedures

1. Boat names and dates have been selected at random.
2. The boats nominated are expected to provide 2 people to assist with race management on that day.
3. Duties may include mark laying, time keeping record keeping and management of flags and will be under the direction of the course race officer.
4. The persons nominated may or may not be regular crew on the boat nominated.
5. It is possible to swap the days nominated above with the agreement of the skipper of the other boat.
6. If any boat is unable to race because they are providing people for the race management team, they may request redress in writing for average points for any series they are in.
7. The skipper of a boat nominated will receive an email about 30 days before the date of service asking for the names, email addresses and phone numbers of appointed representatives.
8. The appointed representatives will then get reminders of their commitment.
