

Notice to Competitors

Wednesday Racing 15 January

AP over A Races not started are postponed. No more racing today.

The race committee has evaluated the potential risks and has decided to postpone racing for today.

Rationale:

Advice from the Bureau of Meteorology duty forecaster and associated weather models indicates the following:

- The area is currently under the influence of an unstable weather system.
- From mid-afternoon into the evening, the race area will be impacted by a developing weather system, bringing lightning activity, strengthening winds, rainfall, and a building sea state.
