Update to RYCV NOR Annexure

Several changes have been made to the RYCV NOR Annexure. A new release has been made titled ***RYCV NOR Annexure 3 2025-26 v6.0.***

1. The Club Aggregate has been further defined with a separate table referencing the races making up this award.
2. The HBYC Port Phillip Sea Pilots race has been removed from the Livingstone and Sun Series.
3. The Single-Handed Series race scheduled on the 1 March 2026 has been removed and a replacement scheduled on the 9th November 2026.
4. Clarifies the requirements for the Black Bottle race scoring to be included in the G&J series.

Rationale:

1. Clarify the races making up the Club Aggregate
2. Removes the overnight component from the Livingstone/Sun and allows for a possible PPNYC overnight series.
3. Removes conflict between the RYCV Navigators Challenge and the G&J single handed series.
4. Competitors sailing in the Black Bottle race are not permitted an observer if this race is to count towards the G&J single handed series. This maintains consistency across the G&J series noting that the Black Bottle trophy may be won by boats with or without an observer.
