

Notice to Competitors

An update to the solo sailing supplementary sailing instruction.

1st April 2026

The race committee has updated the sailing instructions for the solo sailors. The following has been removed:

- Single-handed entrants will not be permitted to start a race during a declared Strong Wind Warning across the race area.
- If a Strong Wind Warning is raised during the race, single-handed sailing may be abandoned at the discretion of Race Committee.

Rationale:

The change has been made so that races aren't automatically canceled when a strong wind warning is present. It will still fall to the discretion of the race committee as per RRS 32.

Liam Robinson Hounsell

Assistant Sailing Manager
