Notice to Competitors

Wednesday Twilight

4 November 2026

The twilight race scheduled for today has been postponed due to forecast inclement weather.

Rationale:

Advice from the Bureau duty forecaster is the main front had been delayed and is now expected to pass later than expected.

Forecast for Wednesday 4 November until midnight
Winds: North westerly about 10 knots tending west to north westerly 10 to 15 knots in the middle of the day then becoming westerly 15 to 25 knots in the early afternoon. Squalls possible with the wind change. Seas: Below 0.5 metres, increasing to around 1 metre around midday. Weather: Cloudy. 95% chance of showers. The chance of a thunderstorm in the afternoon.

Given the need to provide ample notice of postponement and the forecast inclement weather the race committee have made the decision to postpone the race.
